Prolonging asset life

Leaffield offers a complete service covering all our customers' material needs either from our extensive inventory or commercial sources. Leaffield offers a full spectrum of supply services to deliver real benefit to our customers. Under a long-running contract with the Ministry of Defence's Disposal Services Agency, Leaffield holds and markets a vast range of ex-Royal Navy equipment and spares.

If we can't meet your requirements from stock, we will search the open market using our powerful proprietary database of products and suppliers across the world to offer genuine parts at competitive prices, backed by a no-quibble warranty.

With a cross reference of over 1.5 million part numbers, a technical database covering all aspects of equipment configuration, and an intimate knowledge of manufacturers and distributors, Leaffield have an enviable record of sourcing even the most hard-to find parts.

The Leaffield service ensures our customers can prolong the life of their major capital assets.

Engineering Services

Leaffield can offer attractively priced Engineering Services including:

- Inspection
- Next higher assembly
- On-site installation, commissioning and trials support
- Re-calibration
- Repair and overhaul
